

Hockey

Panorama Primary offers Mini Hockey (U7-U9) and Senior Hockey (U10-U13). Coaching is grade specific. Teams are selected according to players' skill levels. Our teams practice once a week and play once a week.

Our hockey players are fortunate to have coaches who provide ample opportunities and are enthusiastic and eager to help. Coaches constantly seek ways to improve their coaching by attending courses and workshops. All players receive equal opportunities to develop their skills during practice sessions.

Aslan Hope in Sport NPL also hosts clinics for our hockey players and coaches.

Throughout the year, we participate in hockey festivals and tournaments held on Friday afternoons and Saturday mornings. Tours are also held during the term as well as during the school holidays.

In addition, we host our hockey tournament every year. Everyone is welcome to participate. We are fortunate to have a small Astro on which our younger teams can play. Our senior teams have a brand-new full field astro. We are indeed incredibly privileged to be able to play hockey on such spectacular fields.

We strive to ensure that all learners who play hockey receive equal opportunities to improve their skills. Panorama Primary is committed to producing outstanding hockey players. Consider how many of our players reach the provincial level while still in primary school.
