

Rugby

At Panorama Primary, we strive in all aspects to excel. We have primary and secondary goals that as a rugby department we aim to achieve through hard work, passion and dedication. The coaches and staff involved in the sport go the extra mile. They are knowledgeable and caring individuals that strive to get the most out of every learner.

“RESPECT ALL, FEAR NONE!”

Our primary goals are twofold. Firstly, we aim to create value-driven responsible and respectable future citizens of South Africa, learners who leave a legacy they are proud of and will inspire future generations to uphold those values and traditions within the fine school of Panorama. Our alternate primary goal is to increase the active player base and promote mass participation. We have over the last few years increased player numbers to well over 300 learners. For the first time we have an U. 13E team!

Our secondary goal is elite performance. The First team and Under 11 A team enter multiple tournaments, compete in sports days and go on tours around the country exhibiting their skills. The coaches of these teams have extensive knowledge, coaching qualifications and impressive CV's including age group provincial representation as both players and coaches.
